

## **Grace Church Presbyterian Pastoral Search Committee | Congregational Update**

September 18, 2022

Grace Church,

In the last month, Grace's consultant Flourish continued to release the packet to increasingly broad networks, first targeting those that are most likely to return candidates who will match with our church. The release is ongoing and we hope to see more applications come in from quality prospects in the coming days and weeks. We are currently in the sermon review portion of the committee's process with a candidate who applied in the past month.

We ask that you continue to pray with us that God would provide the right candidate. Pray for the candidate that we have in the process, that both he and the committee will work effectively together to determine if he and Grace are right for each other. Pray with us that either this candidate is the right fit for Grace or that God would bring us more candidates. Please use the prayer guide for individual topics to present to God in prayer throughout this time of transition.
